

METI TESFAMICHAEL

metiwol@gmail.com | 587-917-5864 | Calgary, AB T2T 3E9

Summary

Civil Engineering background with a strong foundation in infrastructure design, construction management, and environmental impact assessment. Currently transitioning into the dynamic field of software development, I'm actively expanding my skill set through hands-on learning and a full-stack development programs. With a strong communication skill, motive and a drive to continuously learn and grow, I'm eager to contribute to innovative projects and improve my skills through collaboration and day to day learning.

I aim to bridge my civil engineering expertise with my growing programming skills to contribute to global challenges. By combining my technical background in problem-solving and project management with my knowledge of full-stack development, I strive to create innovative solutions that promote sustainable development and environmental resilience on a global scale.

Skills

- Inventory Control Specialist
- *Leadership in sustainability*
- Proactive in health and safety management
- Efficient issue solver
- Microsoft Office
- Microsoft Excel
- Research and problem-solving
- Communication skills
- Collaboration
- Passion
- Adaptability

Experience

Amazon | Calgary, AB

Incoming Count Quality Assurance

07/2019 - Current

- Skilled at Adjusting to Changing Conditions: Exhibited the capacity to quickly adapt to changing conditions in a hectic warehouse environment, continuously attaining operational excellence, and ensuring that workflows run smoothly.
- Knowledge of Amazon's inventory management products and software, ensuring effective inventory control, and supporting process improvement.
- Performed thorough quality checks and inspections to ensure that goods continuously fulfilled Amazon's high requirements for quality, while also surpassing customers' expectations.
- Demonstrated a history of quickly and efficiently addressing inventory-related problems, exhibiting good troubleshooting abilities that help reduce errors.

Roel Construction | Addis Ababa, Ethiopia

Civil Engineering Intern

01/2017 - 01/2018

- Started as an intern
- Demonstrated proficiency in construction materials and their properties, applying knowledge of concrete and steel in high rise and residential construction projects
- Ensured accuracy and precision in construction tasks, maintaining high standards of quality control and compliance with safety and regulatory standards
- Contributed to project planning, scheduling, and coordination within the construction process, displaying strong organizational and planning skills

- Collaborated effectively within construction teams, contributing to group efforts and problem-solving in diverse construction-related tasks.

Education and Training

University of Calgary
Sustainable System Engineering
Expected in 12/2026

University of Gondar | Gondar
Bachelor of Science in Civil Engineering
07/2018

Extra caricular activities

- **Ethiopian-Eritrian Student Association**, University of Calgary 2023–present
- **Engineering Leadership Program**, University of Calgary 2021–present
- **Volunteer**, Calgary catholic immigration 2019–2020
